General Information

Journal references in Mathematical Reviews (MR) appear in the following form: *J. Utopian Math. Soc.* (6) **5(56)** (1995/96), *no.* 2, 18–53 (1997), where, after the abbreviated title, one has: (series number) volume number(volume number in first series, if given) (nominal date), issue number if given, first page–last page (imprint date). If only one date is given, it is the nominal date and follows the volume number. If no volume number is given, the year is used in its place. The symbol ★ precedes the title of a book or other item that is being reviewed as a whole; the symbol Ⓥ precedes the title of a videocassette. If an issue of a journal is to be reviewed as a whole and an ad hoc title is devised for this purpose then this title appears in braces { }. Articles that have been accepted for publication in certain important journals are now reviewed in MR from the final manuscript; the symbol ○ at the end of a review denotes such an item.

References to reviews in Mathematical Reviews before Volume 20 (1959) are by volume, page number and position on the page (e.g., MR **15**, 122c); from Volume 20 to Volume 58 (1979), by volume and review number (e.g., MR **20** #4185); from 1980 on, by issue and review number (e.g., MR 80a:46017). References to reviews in Jahrbuch über die Fortschritte der Mathematik are by volume, page number and position on the page (e.g., JFM 24.0048.02). References to reviews in Zentralblatt für Mathematik before Volume 218 (1972) are by volume, page number and position (last two digits) on the page (e.g., Zbl 047.06904); from Volume 218 on by volume and review number (e.g., Zbl 218.46017). References to reviews in Applied Mechanics Reviews, Computer & Control Abstracts, Physics Abstracts, Referativnyĭ Zhurnal Matematika (Mekhanika, etc.) or Statistical Theory and Method Abstracts are prefixed by AMR, CCA, PA, RZhMat (RZhMekh, etc.) or STMA respectively. Reviews reprinted from Zentralblatt für Mathematik are identified by the Zbl review number in parentheses following the reviewer's name.

Authors' names are given as listed in the item being reviewed. In order to identify each author uniquely, MR has assigned to certain authors' names an identifying form of the name. Superscript numbers are used in identifying forms where necessary. The identifying form is added in brackets following the published name.

Most review headings include institution codes. An institution code, indicating the author's address as listed in the reviewed item, consists of two [or three] parts separated by hyphens (e.g., 1-MR [or F-LYON-P]); these parts designate the country, the university or institution [and the department]. The absence of a department code usually indicates Department of Mathematics. Institution codes are also used to indicate the reviewer location for some reviewers. A list of codes appears in the most recent Annual Index of Mathematical Reviews.

Editorial Office: MR is a publication of the American Mathematical Society; it is edited at the University of Michigan in Ann Arbor. All editorial correspondence should be addressed to Mathematical Reviews, 416 Fourth Street, PO Box 8604, Ann Arbor, MI 48107-8604, USA; it may also be sent electronically via Internet to MATHREV@AMS.ORG or by FAX to (734) 996-2916. All other correspondence should be addressed to the American Mathematical Society, PO Box 6248, Providence, RI 02940-6248, USA. Orders should be addressed to the American Mathematical Society, PO Box 5904, Boston, MA 02206-5904. *All orders must be accompanied by payment.*

Subscription information: Beginning with the subscription year 1994, there is a new pricing scheme for products derived from the Mathematical Reviews database, including MR. The list price for a 1998 subscription to MR, including the annual index, is $5,849 = $5,460 (Data Access Fee) + $389 (Product Delivery Fee for MR paper or microfiche). For Institutional or Corporate Members it is $4,757 = $4,368 (Data Access Fee) + $389 (Product Delivery Fee for MR paper or microfiche). Sites which have paid the Data Access Fee can obtain additional subscriptions to MR for $389 each. Individuals who are affiliated with a site which has paid the Data Access Fee can subscribe to MR for $389. Subscribers to paper MR outside the United States and India must pay a postage surcharge of $117. Subscribers to paper MR in India must pay a postage surcharge of $153. Expedited delivery to destinations in North America is $138; elsewhere $379.

Back volumes information: Back issues are available for all volumes of MR; price information can be obtained from the American Mathematical Society, PO Box 6248, Providence, RI 02940-6248. Back volumes are also available in microform from University Microfilms International, 300 North Zeeb Road, Ann Arbor, MI 48106-1346.

Cumulative indexes: There are sets of cumulative author and subject indexes that cover the entire span of MR from 1940–1984.

For additional subscription information and information about other products derived from the MR database, contact: Membership and Customer Service, American Mathematical Society, PO Box 6248, Providence, RI 02940-6248; electronic mail = CUST-SERV@AMS.ORG; FAX = (401) 331-3842.

Mathematical Reviews (USPS 333-940) is published monthly plus, in December, an annual author and subject index issue, by the American Mathematical Society, 201 Charles Street, Providence, RI 02904-2213. Periodicals postage paid at Providence, RI, and additional mailing offices. Postmaster: Send address changes to Mathematical Reviews, American Mathematical Society, PO Box 6248, Providence, RI 02940-6248.
